UKSE GROUP
PEOPLE AND PROJECTS FOR INFRASTRUCTURE

CASE Study

FST Refurbishments - Beckton

UKSE Group was engaged to support Thames Water for the installation and maintenance of multiple Final Settlement Tanks (FSTs) at Beckton Sewage Treatment Works -one of Europe's largest wastewater treatment facilities. The work consisted of bridge structures, scrapers, drive motors and new cabling.

Full site supervision was supplied by UKSE Group along with several managed craneage operations.

The programme spanned 18 months and was a part of infrastructure upgrades to improve treatment capacity, operational efficiency, and environmental compliance.
