UKSE GROUP
PEOPLE AND PROJECTS FOR INFRASTRUCTURE

CASE Study

Multi Site Pumping Station

As part of a strategic programme to improve pumping station performance and reduce pollution, UKSE Group were engaged to provide several mechanical and electrical teams to support this critical project across the South of the UK.

Each team was fully kitted out with critical spares and key components to minimise the number of visits required at the sites. Works included pump upgrades and repairs, valve and pipework modifications and electrical modifications to MCC's and switchgear.

We deliver...
